Specification

The disclosure is objected to because of the following:

The embodiments of Figs. 6 and 7 are not understood.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

Claims 1-4 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

The invention is not adequately disclosed. The "middle sleeves", "sets" thereof, "base unit", "folding portions", "net units", "middle bars", "edge bars", "buckle", etc., are not clearly shown in the drawings nor described in the specification. The claims will be addressed as best understood.

Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There are errors too numerous to list individually. For example, "spaced away", "namely", etc.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3634

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-4 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Nien 6,834,702.

Nien is being applied as best understood in light of the 112 rejections above. See unit 13, sleeves 21, one set being the upper sleeves and the opposite set being the lower sleeves, notches 212, bars 22, ropes 141.
